

A commercial partner for physical oil and gas transactions.

Ztrade works for one side of a transaction, normally the seller, under a written agreement. We develop the relationship, prepare the counterparty file and coordinate the steps from first contact to an executed contract.

ROLE

We represent one party in a physical oil, gas or petroleum product transaction, normally the seller, and are paid by that party. The seller and the buyer contract directly with each other; Ztrade does not sit between them on the contract.

SCOPE

Products. Crude oil, natural gas (LNG and LPG) and refined products: gasoline, naphtha, jet fuel, diesel (including ULSD), gasoil, fuel oil (HSFO and VLSFO), bitumen and other petroleum products.

Transactions. Cargo-size physical sales, spot and term, FOB or CIF under Incoterms 2020, on the buyer's or the seller's standard terms.

Counterparties. Established suppliers and producers' resellers on the sell side; trading houses, refiners and large end users on the buy side.

SERVICES

- Client and counterparty relationships
- Due diligence support
- Onboarding coordination
- Transaction coordination
- Trade finance coordination (financing by external providers only)

HOW WE ARE PAID

By the party we represent, as a fee per completed transaction under a written agreement. The counterparty pays nothing to Ztrade. Any fee-sharing with a partner company is disclosed to the counterparty's compliance function on request. Ztrade does not trade for its own account and does not finance transactions.
